

## Lecture 19

by

**Dr. Sugandha Maheshwary**

(Indian Institute of Science Education and Research, Mohali India)

### **Using Softwares in Mathematics**

In this talk, I will talk about the significance of using softwares in learning mathematics for students, teachers and researchers. I will give a glimpse of various freely distributed softwares which can make mathematical learning more effective. In particular, I will demonstrate how software GAP can be used for computations in Algebra and Number theory

Date and Time:  **Wednesday, December 15, 2021, 3.00 PM.**
